Privacy Notice for Early Years Covid Recovery - Experts and Mentors Programme

Who we are

This work is being carried out by the Early Years Covid Recovery team which is a part of the Department for Education (DfE). For the purpose of data protection legislation, the DfE is the data controller for the personal data processed as part of the Early Years Covid Recovery – Experts and Mentors Programme.

How we will use your information

We receive your personal data either directly from yourself, your setting leader/manager or via your Local Authority.

The aim for this project is to aid in the education recovery of children in the Early Years in light of the Covid-19 pandemic.

The project will secure candidates to act as Area Leads, Experts and Mentors to provide support to practitioners, setting leaders and whole-settings (settings to receive support are identified by Local Authorities based on certain criterion).

We will use your personal data to send you email notifications about updates to the online child development training course. We will notify you by email when the full training course is launched and when new modules are available.

We may also use your personal data to send you an invite to take part in research about the online child development training course, where you have agreed to this.

for Education.

Data may also be shared about a setting, including but not limited to, action plans, objectives or meeting dates and relevant background information between relevant Experts, Mentors, Area Leads and Local Authorities that are actively engaged in the programme.

Why our use of your personal data is lawful
